

BUSHFIRE RECOVERY ACCESS PROGRAM

what is it?
who qualifies?

The Bushfire Recovery Access Program has been announced recently by the government to support those who have been affected by the 2019-2020 bushfires. Here is a short summary of what the program -

- Have you had an adverse change in your mental health as a result of the recent bushfires? If yes, you might be eligible.
- You could be entitled to 10 sessions a calendar year... in addition to the 10 sessions you might be eligible for under Better Access (for which you require a GP referral)
- You do NOT need a GP referral to seek support under this program... however contact with your GP could be helpful.
- Mental health professionals providing bushfire recovery support are responsible for determining your eligibility... it could be worth contacting your provider to discuss your eligibility PRIOR to seeing them.
- This program is NOT a free service... however a Medicare rebate is available. Some private providers might offer reduced fee services.
- The program ceases at the end of 2021.

Enhance Life Psychology is able to offer a series of 6 bulk-billed sessions to a limited number of eligible clients until the end of the June 2020.

This will be reviewed in early June.

Contact us to discuss your needs.
